~^ What CCC ^~

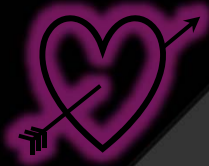

CCC?

CCC that we choose as topic is simplified form of **Cau Campus Couple**. We are going to make an application for couples in Chung-Ang University.

The main functions are **mutual messenger**, and **scheduler** that contains time table, individual schedule, and school program. And also it will provide a special option called Smart Schedule. It offers appropriate date time and helps to make time table.

Why CCC

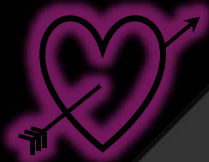

Why CCC?

We wondered that there is lots of application for couples, but why many people don't use those **app steadily**. So we start to make CCC.

Maybe the reason is that it is better to use messenger like "KakaoTalk" than to use any existing couple application. But **special function of CCC** will solve this problem.

Who CCC

CCC for whom?

CCC is an basically application for Chung-Ang University campus couple, but additionally it provides many things that **Chung-Ang University students also use usefully.**

It will be a useful application because of messenger, sharing time table with friends, and management of individual schedule. So **CCC is open for every students in CAU.**
